

## **ABOUT US**

The Three Percent Republic is an organization made up of patriotic citizens who love their country. We are devoted to upholding our rights as set forth in the Constitution of the United States of America. We are committed to educating others about the Constitution and standing up against unjust laws and those who will have them passed. We Identify as III% but we are not like most other organizations.

We are not a militia. We do not hold offensive trainings with weapons. We do however have meetings on local, state, and National levels. These meetings are constructional in their content. We encourage and assist member with local networking. Being a part of the Three Percent Republic a way of life rather than a social club to join. As this organization is of the people and for the people there are no membership fees or dues. We will not charge people to participate in a movement that defends the framework of our Country. This does not mean that all events are going to be free of charge. Some events may be held at facilities that require admission which can be paid individually or as a group. We consist exclusively of volunteers and no member at any level including National leadership is on any payroll provided by the Three Percent Republic.

We are not anti-government. On the contrary we are pro government. We will stand shoulder to shoulder to protect our republic from those who wish her harm. We will challenge any law that infringes on the rights of the people by way of protest and political movement. In the case of an elected official pursuing a law that would be detrimental to the rights and freedoms of all Americans we will organize and rally the voters against them. We do not wish to see our government overthrown or toppled.

In fact, we are very pro-government, so long as the government abides by the Constitution, doesn't overstep its bounds, and remains "for the people and by the people". Our goal is to utilize the fail safes put in place by our founders to reign in an overreaching government and push back against tyranny. We are working to preserve the intent of our government as designed. We do not intend to implement our own government. There is often a misconception that we are wanting to overthrow the government. This is simply not true and a false rumor to try and paint our movement as anti-government.

## **History:**

The III % is an American patriot movement that pledges resistance against the infringement of the United States Constitution. The group's primary purpose is to protect their views of constitutional rights and has been characterized as being ideologically like the Oath Keepers.

The group's name is based on the American Revolutionary armed resistance against the British. The revolution constituted an estimated three percent of the population. This number has never been accurately calculated, but is generally believed to be the ratio, thus the name. The participation rate of the eligible population is estimated to have been higher than in most other American military conflicts.

The movement was started on December 17, 2008, in response to the election of Barack Obama. The movement was co-founded by Mike Vanderboegh from Alabama, a member of the Oath Keepers, a group with whom the 3 Percenters remain loosely allied with and who publicized the movement on his blog "Sipsey Street Irregulars" beginning November 2008. Additionally, the "Three Percenters Club" website was established in 2011 by Michael Graham.

The "Nyberg Three Percent Flag," designed by Gayle Nyberg in 2008, is based on the Betsy Ross Flag with the Roman numeral "III" inscribed in the circle of thirteen stars.

## **We believe in three core fundamentals:**

**Education:** How can one know what rights are eroding away if one does not know what rights they possess? It is our job to educate others about the mechanics of our government, about the ways of a three percenter and the ways of the Three Percent Republic.

**Community Outreach:** It is the goal of our group to improve our communities and the lives of those that reside in them. To get your zone and state involved with charity. To establish disaster response groups to aid our brothers and sisters in their times of need.

**Preparation:** Being prepared does not only mean stockpiling food and water. It means being mentally prepared to tackle any challenge placed in front of you. It means being physically prepared to go the long haul. Preparing for any circumstance gives us the ability to help our communities in the case of natural disasters. It gives us the ability to hold out a lending hand. We will also encourage everyone to learn First Aid, Food Preparation and how to defend one's self.

## **PRINCIPLES OF THE THREE PERCENTERS:**

All members of the Three Percent Republic must abide by these four principles.

1. **No First Use of Force** - We are not the aggressors nor antagonists. We are defensive in nature and will exhaust all options prior to any escalation of force.

2.. **Moral Strength** - Knowing what is right and wrong and acting accordingly. Being trustworthy, truthful, and holding high values and principles. Having the moral strength to stand up when something is wrong without fear.

3. **Physical Readiness** - Physical readiness is defined as the ability to meet the physical demands of any task to accomplish the objective at hand. Even Betsy Ross had a place in her ability.

4. **No Targeting of Innocents** – we will not react to or act upon anyone who has not presented themselves as an opponent.

Anyone who cannot accept these principles as a self-imposed discipline are welcome in this organization, nor should they ever consider themselves a part of the Three Percent movement.

## **OUR GOAL**

The goal and focus of the Three Percent Republic is to get patriots to network, prepare, petition and rally together on a local, state and national level. We intend to provide the groundwork and guidance that will be used to make positive advances in the restoration of our Constitutional Republic. We plan to leverage incorporated fail safes and laws to ensure the success in preserving the Constitution as the supreme law of the land.

## **ORGANIZATIONAL FOCUS AREAS**

Education, Preparation, Community Outreach, Political Involvement, Training

Members of the Three Percent Republic should seek to acquire the following basic skills, with the expectation of advancing and fine tuning your skills. • Basic fundamentals of firearm safety (mandatory completion for new members) • Marksmanship training (both pistol and rifle) • Advanced tactics/shooting (upon completion of Basic Fundamentals of Firearm Safety and Marksmanship training) • Entry level/advanced knowledge of Radio operations and Comms (recommend HAM licensing) • Develop a physical fitness/physical preparedness plan (maintain awareness of personal limitations and personal improvement) • Basic First Aid/Advanced First Aid (develop advanced medical personnel/field medics). • Develop basic understanding of land navigation/GPS/Topographical maps and ability to use a compass • Food preservation and water filtration • Branches of government and their duties.

In addition to these skills, all Three Percenters should know and understand the Constitution in its entirety, especially your rights and limitations. For legality sake, all members should be familiar with Federal, State, and Local laws for where they work, live, and interact. It is expected that you defend ALL rights of 'We the People', regardless of Race/Religion/Creed. **The hardest part about protecting freedom, is protecting the freedoms of those we do not agree with.**

## **POLITICAL ACTIVISM**

Three Percenters have a voice, a very loud voice indeed, but that voice needs to be heard. However, if we do not act, then our voice falls on deaf ears. The Constitution has been metaphorically shredded in many states, and our rights have become a mere shadow of what the Founding Fathers envisioned. We need to restore America to the Republic she once was.

Here are a few things you can do, to make a difference lawfully: • Educate yourself on the Constitution. The entire document and all her amendments. • Educate yourself on laws; current, past and future. Are there laws about to pass in your town that you are unaware of? Should they be passing without protest? • Do not take someone's word for what laws or executive actions/orders may be coming down- research for yourself. • Ensure that you search credible

sites to get the true text in that law. Search [www.WhiteHouse.Gov](http://www.WhiteHouse.Gov) and choose the section Presidential Actions to read text on any action/order the president takes.

Think a law/action/order is unconstitutional? Then start a We the People petition at [www.WhiteHouse.Gov/Petitions](http://www.WhiteHouse.Gov/Petitions). Work actively to get signatures and convince people why your cause matters to them. • Actively participate in all elections that you have a voice in. Learn who your federal, state and local representatives are, and contact them regularly. What do they stand for and when is their term up? • Know who is running for your next Sheriff, Mayor, Senator, etc. (Keep in mind your Sheriff is the supreme law of the land and has the power to kick the Feds out if they're actions are unconstitutional.) Try attending meets they host so you can see for yourself what type of leader will they be. Will these people represent your ideals? • Protest and Counter-Protest; we are many in number and numbers speak loudly. If you see something happening in your community that is wrong, then use your constitutional rights to create and organize a rally for your cause, or a protest of your grievances. Invite, advertise and share so you can have a show of force. Strength in numbers. • Write your officials, call and email them with your thoughts. Don't just let them know that you are upset, explain to them why you're upset, why it is unjust and immoral and how it affects those in your community. Don't be afraid to meet them and discuss your grievances personally. • March forward with an open mind but never surrender. Fight to get your voice heard and fight for those who you vow to protect.

## **COMMUNITY OUTREACH**

Three Percenter Republic are not just you and I. They are our Sheriffs, our Police Officers; Firefighters and Medics, Nurses and Doctors. They are our IT folks and librarians, grocers, farmers; they are in all professions. They are members of our community.

Part of being a member of a community, means contributing to it and knowing who we can count on when disaster strikes. We all have participated in assisting our community in one way or another; flood clean-up, sand-bagging, food donation and collection, tornado clean-up and even search and rescue. These are just a few ways we already contribute to our community. But does our community know that it is a member of the Three Percent Republic who came to their aide in time of need? If not, they should be notified.

We must change the hearts and minds of people on who Three Percenters Republic are. However, we cannot force them to accept our ideals. Our actions speak louder than any words we speak. To show the community that they can count on the Three Percenter Republic, we must act. We must show them who we truly are.

We are expected to:

- Be a dependable member of our community. Make sure your neighbors know you, a Three Percent Republic, will watch out for them. Lead a neighborhood watch program.
- Support local law enforcement by letting them know Three Percent Republic have their backs.
- Volunteer when your schedule permits - schools, places of worship and community centers are just a few of many ways to help fellow Americans.
- Assist local authorities when appropriate; anything from sandbagging efforts and disaster relief, to search and rescue operations.
- Be the change you want to see.

## **PUBLIC RELATIONS**

As a Three Percent Republic member, you have likely been approached and asked: “What is The Three Percent Republic, how are you different than those other groups?” Maybe it was a decal on your vehicle or a flag you fly at home that prompted the curiosity. How did you reply? Did you go into detail or keep it short and sweet? What do they think about you and your cause once they hear what you have said? What will they say when they tell others about you? Did you leave a lasting and positive impression on their hearts and minds? What about your appearance and demeanor? Were you easily approachable and willing to speak confidently or were you perceived as stand-offish and closed-minded?

These are the things we need to always keep in the front of our minds. Being a member of The Three Percent Republic is a full-time job. It means representing the cause wherever you are and whenever you are. It’s not just about how we think we act, it’s part of situational awareness; how were we perceived. You may say to yourself that you don't care how others look at you. If this is the case, then you are doing the cause a disservice and turning away potential support.

Here are some things to remember when interacting with the public:

- Reference this guide and all PR broadcasts from Nationals to educate yourself on the best approach to these sometimes-difficult questions. Talk to your State and Zone Leaders. Request a meeting with them or jump on call to clarify.
- Stand for the rights of all Americans; all races, all religions, all genders and creeds. There will be times we disagree with a value but if we are truly for the constitution then we stand for their rights as well.
- Dress appropriately. Wear clothes that are comfortable but that are clean and of correct size. Dress for the occasion. Don’t wear full battle-rattle when going to Wal-Mart. Maybe you have a permit to carry, but how will you be perceived?
- Carry every day and everywhere you legally can (follow all laws and permit requirements). Be conscious of your surroundings and respectful of other beliefs. Would conceal carry be a better option? Do you feel that open carrying an AR is the best choice to persuade folks who already dislike guns?
- Carry a properly holstered sidearm that is clean and in good condition. Make sure your holster works with your belt. Inspect your firearm and ammo regularly.
- Be vigilant but be approachable for open dialogue. Avoid petty confrontations. Be the bigger man/woman and choose when to end the conversation if you feel it’s going down the wrong path.

## **MEMBERSHIP AND PARTICIPATION**

### **POTENTIAL MEMBERS**

Potential Members must first fill out a questionnaire and go through a vetting process. Again, there are no membership fees or dues. Membership in this organization is reserved for those who read, understand, and abide by the rules, principles, and views as described in this documented framework. Vetting will be performed by State Leaders. Participation is not only warranted, but actively encouraged. All willing able-bodied men and women who are of sound mind are invited to participate. Everyone has different skills and backgrounds that can be brought to the table to benefit the group. Children can participate at family friendly events.

### **FELONS**

Those with felonies are not allowed to participate with us. We **HIGHLY** encourage each felon to get their felony expunged. Felons are not allowed to hold any position in this organization. They especially are not allowed to talk to any news outlet or to represent this organization in any fashion.

### **RECRUITING**

Recruiting is best done face to face, though not required. Only invite those who you think you can trust and who you feel would make a great member. The first recruiting focus of each member should be to recruit family members, friends, and neighbors, as they are the easiest to recruit. The second focus should be to recruit those people you see in person or on social media that seem to have the same ideals that we have. If you notice someone who has a patriotic sticker on their vehicle, walk up and talk to them. You could even make business cards to pass out to potential members. Look for quality members that will help our image and not loose cannons that are wanting to start a Revolution.

The best ways to attract new members is to tell them about the organization. We will be providing templates that can be used for distributing information about our group and bringing people to our online resources. From there, the vetting and networking process for members and leaders can begin. Some of these templates include: business cards with contact information listed, Pamphlets that provide some insight on our group and objectives, and flyers that can draw people to meets and events.

### **VETTING**

State Leaders and State Vetting Officers have full discretion to accept or reject any potential member for this organization. State Vetting Officers should only accept potential members who they feel are upstanding, law-abiding citizens who will benefit their state and the movement.

This organization has a multi-level vetting process:

Level 1: State Chapters on Facebook State Chapters on Facebook are closed, but people can ask to join them. When they submit a request to join the State Leader or State Vetting Officer will overlook their pictures, location, and legitimacy of the profile, and will choose to accept or reject the request. Members are encouraged to only participate in States in which they reside, have secondary residencies in, frequently travel for work, or have an immediate family interest with. People near neighboring states are welcome to participate in that state's neighboring zones/district for situational awareness. It is strongly discouraged to request membership in states more than would be expected in your purview and could lead to being inadvertently removed from all group memberships.

Level 2: Forum State Leaders will post links on their State Chapter Facebook pages asking people to join the forum. It's best to use actual links of posts and training materials/videos, so when the link is clicked it requires registration.

Level 3: State Room in the Forum When a potential member asks to join their State Room on the forum they must fill out the following questionnaire given by their State Vetting Officer or State Leader and provide answers to any further questions asked by them. This form should be filled out

<http://threepercentrepublic.com/wp-content/uploads/2017/04/Three-Percent-Republic-New-Members-Form.pdf>

#### **INVALIDATED PERSONS**

Anyone who claims to be a Three Percent Republic member but does not abide by or follow the four Principles of the Three Percent Republic should cease to be called such. Any member who lies during the vetting process, any felon and/or any person who has underlying motives that do not align with our views will be removed immediately. If at any time any member feels an individual's views are not in alignment with the views expressed in this document, that member should seek out a leader immediately and report said person. If an individual is trying to act in our name and their actions are not aligned with our views and principles we will take actions to make all aware that this individual does not represent our organization, nor the Three Percent movement. If any member feels another member is a credible threat to themselves or others, that member should contact local authorities or 911 immediately.

## **EVENTS AND MEETINGS**

Events and meetings is what unifies and build trust on a local level. It's all about networking and knowing who you can trust in emergency situations. Events and meetings for members are determined by their tier leaders and should involve state and zone training officers. The agenda for each event should be voted on by the members of that tier and should focus on building skills and preparing members for an emergency. Other events could include organizing protests, reviewing political candidates, creating petitions, disaster relief/cleanup, security details, and supporting local authorities. The meetings do not have to be taught by the tier leaders or training officers. We encourage letting members teach each other. The tier leader should find out the skills and knowledge that's within the group and have the members teach each other. Training materials are also available on our forum. Focus areas (listed later in this document) should be the driving factor of these events and meetings.

Standard for frequency of meetings: State – Annually, Zone - Quarterly or Biannually, District - Monthly or Quarterly, County - Monthly, Biweekly, or Weekly

## **INTERNET PRESENCE**

We police our own and are not interested in getting our members suspended from the information we share.

### **SOCIAL MEDIA (FACEBOOK, TWITTER, YOUTUBE, ETC)**

State Chapters have been set up on social media sites to help with recruiting efforts. Social media is a great way to keep members motivated, boost morale, and disseminate information. NO INDIVIDUAL ZONE OR GROUP FB PAGES ARE AUTHORIZED OUTSIDE OF OUR GROUP AND STATE PAGES.
